BIOGRAPHY

Warren Buss

Digital Business Solutions
Senior Account Manager at
Datacentrix

Warren has around 20 years experience in Information Technology and is an experienced Account Executive with a demonstrated history of working in the Enterprise Information Management (EIM) Technology and Services industry. He is skilled in Content Management (ECM), Business Process Management (BPM), Robotic Process Automation (RPA), Digital Process Automation (DPA), Information Discovery and AI.

He is a strong sales professional with a Bachelor of Commerce (BCom) degree focused in Informatics from the University of Pretoria as well as a certified AIIM Professional (Association of Information and Image Management).

He has a strong consulting and programme management background that allows him to identify with clients requirements and propose valuable solutions and services thereby assisting organisations with their digital transformation journeys.
