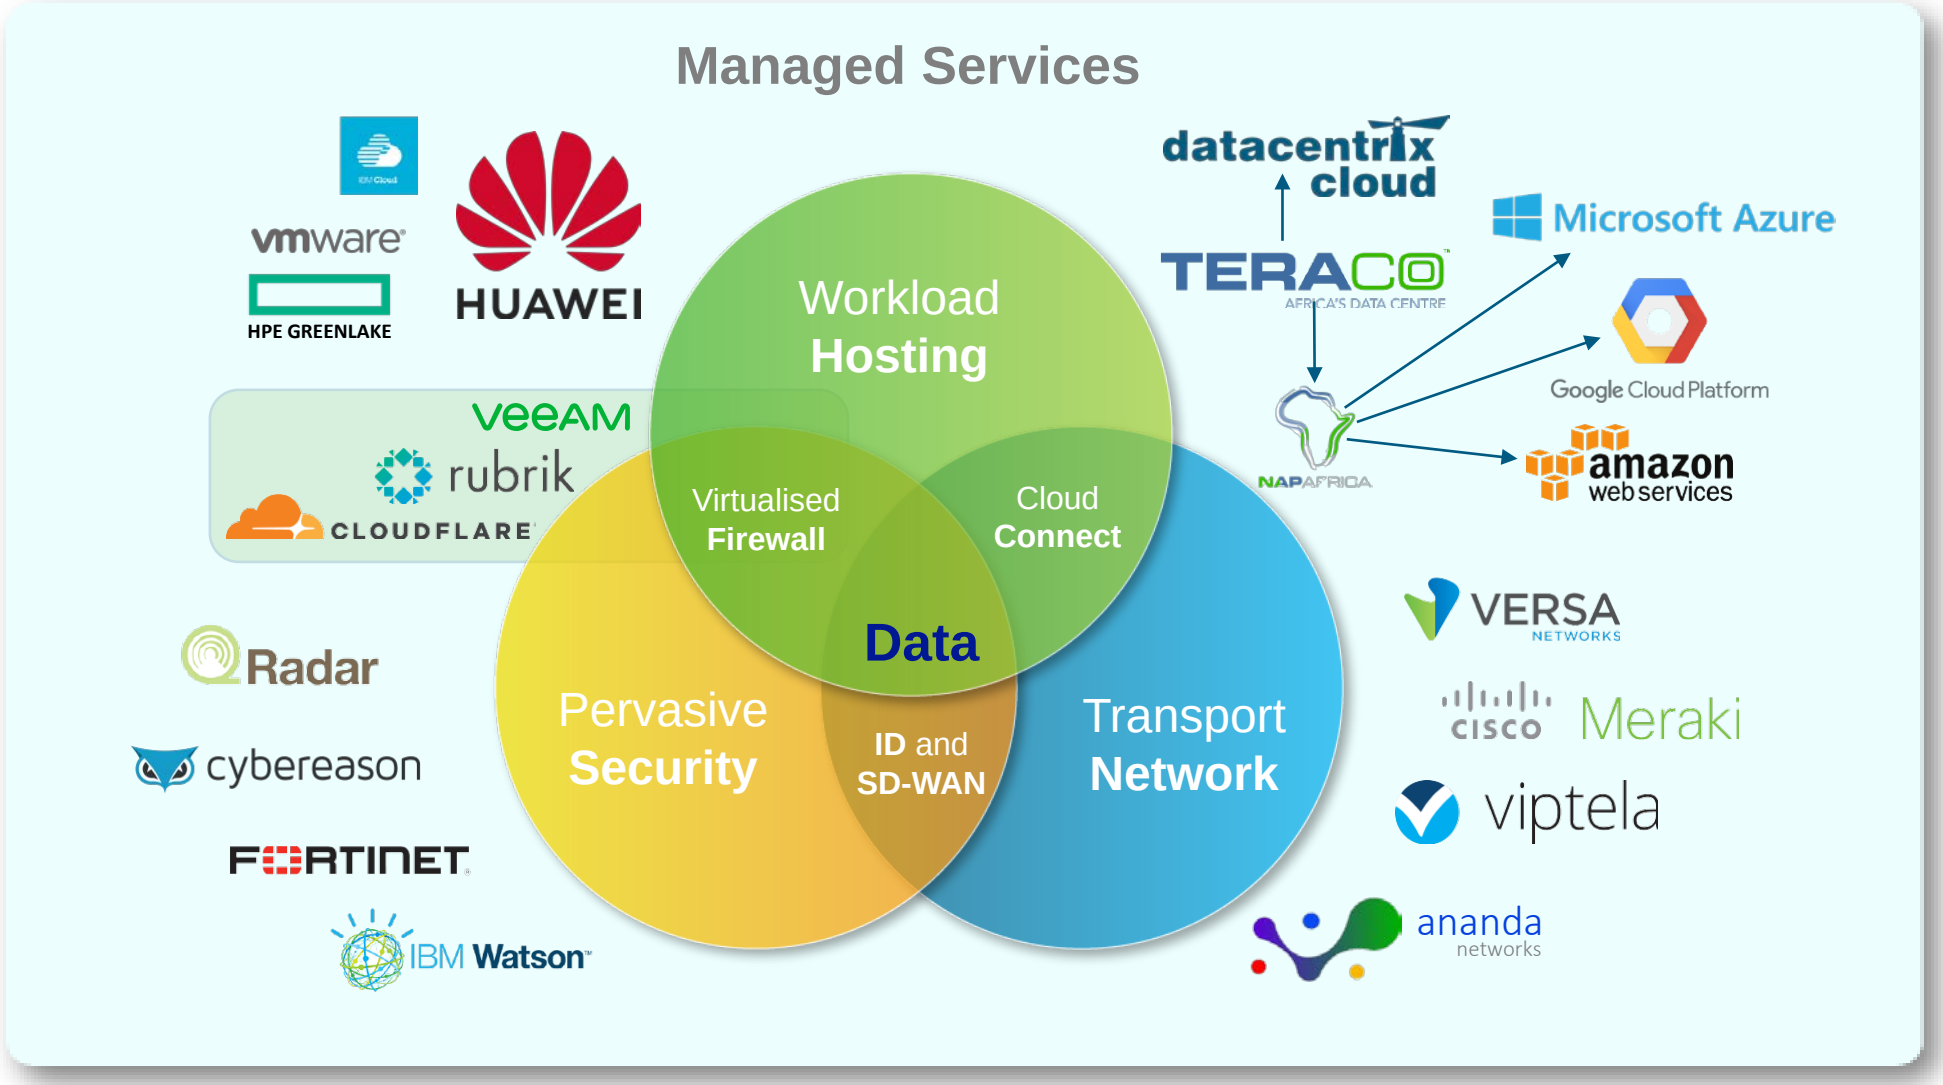
Unleashing the real power and value of data, a modern take on cloud computing
Jaap Scholten, Head: Group Hybrid IT Strategy at Datacentrix

Hybrid IT Simplified

- Data first versus cloud first
- The transportation of data
- Hosting of data
- Security and the two bookends

Data is the new gold

Data-first Approach



Transporting Data

Data Transport: Networking

- Simple beginnings
- Growth in IoT
- Reach beyond our borders
- The golden thread to data access

Data Hosting

- Fit for purpose
- Hybrid cars = hybrid clouds?
- The great lakes
- International HQ

Pervasive Security

- Firewall as a Service?
- The “Sokkie”
- Identity management
- SASE and Zero Trust

Thank you
