

## Datacentrix joins the SolarWinds Partner Network

Datacentrix is proud to announce its partnership with SolarWinds, a leading provider of powerful and affordable IT management software. SolarWinds® serves over 300,000 customers worldwide ranging from small businesses to large enterprises.

The two companies recently joined forces to demonstrate SolarWinds' IT management portfolio at a customer event held at the Bryanston Country Club.

"The multi-vendor monitoring solutions for on-premises, cloud, or hybrid deployments are a good strategic fit for Datacentrix," said Johann Coetzee, MD: Commercial at Datacentrix.

"Fully scalable SolarWinds solutions help to reduce costs, speed up problem resolutions,

and track issues quickly, putting the customer in control of their systems and applications performance. The solutions are designed to help IT professionals successfully manage and easily scale their IT environment regardless of size or complexity.

A trial version of the SolarWinds solutions is available to download free of charge for customers to experience the performance power and value delivery with zero commitment."

Datacentrix has successfully completed its first SolarWinds implementation with a large African beverages company across its African operations and is looking forward to expanding the operational performance benefits to its client base.
